January 22, 2001

Mr. Mark Stone
Federal Communications Commission
Portals II Building
445 - 12th Street, S.W.
Room 6-C365
Washington, D.C. 20554

Mr. Stone:

Enclosed is the electronic version (CD) of the performance measurement data that was posted on our web site as of Monday, January 22, 2001. This is a monthly update for the merger performance measurements for Ameritech Operating Companies (AIT), Pacific Bell Telephone Company (PB), Nevada Bell (NB), Southern New England Telephone Company (SNET) and all of the Southwestern Bell Telephone Company (SWBT) states, except for Texas which is no longer required to report as set forth in paragraph 24 (ii) of the SBC/Ameritech conditions.

In addition, the following restatements or changes are included in this report:

AIT:

Measure 19, OSS Interface Availability, has been restated for November results. The EBTA disaggregations were displayed as seconds and have been corrected to display as hours.

NB:

Retail HICAP results for February, April and September 2000 results were rerun to include DS1.

The comparison for UNE Basic Loops (5c, 10b, 12c and 13c) was restated for January and February 2000 to correct a programming logic error.

Measure 4b, Percent Due Dates Missed – Design: Specials data were rerun for February through May 2000 with no change to parity results

Measure 3, Percentage of Flow Through Orders was restated to reclassify incorrectly identified non-flow through eligible orders.

PB:

October and November 2000, Measure 2, Average Response Time for Pre-Order Interfaces has been restated to reflect Datagate reclassifications.

November 2000, PM 13c, Customer Trouble Report Rate – UNE has been restated to reduce the line count quantities for one CLEC.

Beginning with December 2000, new data elements have been added to Measure 1, Average FOC Notice Interval, and Measure 4d, Average Completion Notice Interval, for the EXACT OSS interface that is replacing the CESAR OSS interface.

SWBT:

SWBT is now reporting disaggregations for Measure 2, Average Response to Pre-Order Queries for Verigate (actual loop makeup, actual data returned; actual loop make up, design data returned; design loop makeup, design data returned; detailed CSR queries).

Measure 10b, Percent Missed Repair Commitments - UNE contains a disaggregation for DSL Line Sharing.

The critical Z-scores for December, 2000 for all of the reporting SBC states are as follows:

IL 1.72	IN - 1.74	MI - 1.7	OH - 1.68	WI - 1.68	NB - 1.75
CA - 1.70	AR - 1.68	KS - 1.7	MO - 1.68	OK - 1.7	CT - 1.74

Please call me if there are any questions regarding these reports.

Sincerely,

Al Sydes
